Thanks. Couldn't find it on Envirostor. Will look next in EPA files.

Hi Wayne,

There was. At least some of the sandblast grit was mixed into asphalt and placed back on roads at Hunters Point.

Field Demonstration Report on Recycling Spent Sandblasting Grit into Asphaltic Concrete; Volume II - Field Demonstration Test Methods, Results and Conclusions; Volume II - Technology Transfer	1/11/1996
--	-----------

Our copy is in long-term storage. Not sure if DTSC posted this on Envirostor.

Karla –

There is a table in Parcel G ROD (“Table 1. Previous Investigations and Removal Actions”) that says:

“Sandblast Grit Removal Action, 1991-1995, A total of 4,665 tons of discarded sandblast grit was removed throughout HPS.”

Do you know if there is a report describing or documenting the removal action?
